

THE JOHN WHITMORE MODEL

AM I PURSUING THE RIGHT GOAL?

If you set yourself goals, you should distinguish between final goals and performance goals. A final goal might be 'I want to run a marathon'; a performance goal helps you achieve this aim, for example 'I will go jogging for thirty minutes every morning.'

Write down your goal and check, step by step, whether it correlates with the fourteen requirements in the model.

A few things to note: if a goal is unattainable, there is no hope, and if it is not challenging it will not motivate you. If the fourteen steps are too complicated for you, keep in mind the following ground rule when establishing your goal:

KISS – Keep It Simple, Stupid!

The greatest danger for most of us is not that our aim is too high and we miss it, but that it is too low and we reach it. *Michelangelo*

S	SPECIFIC	THE RIGHT GOAL		C	CHALLENGING
M	MEASURABLE	P	POSITIVELY STATED	L	LEGAL
A	ATTAINABLE	U	UNDERSTOOD	E	ENVIRONMENTALLY SOUND
R	REALISTIC	R	RELEVANT	A	AGREED
T	TIME-PHASED	E	ETHICAL	R	RECORDED

Once you have established a goal, check whether it correlates with these fourteen requirements.
